PROFILE SUMMARY

Enthusiastic Computer Science Engineering student skilled in MERN stack development and DevOps practices using Docker and Jenkins for containerization and CI/CD. Strong problem-solving abilities with a passion for learning new technologies and contributing to innovative projects.

EDUCATION

- **Bachelor of Technology , Computer Science Engineering** at Gandhi Institute of Engineering and Technology, University, with 8.7 CGPA , graduating in 2026.
- Completed **Intermediate** in 2022 from CHSE Board, Odisha
- Completed **SSC** in 2020 from BSE Board, Odisha

TECHNICAL SKILLS

- **Programming Language** - Java , Python, Javascript.
- **Frontend** - React js , Tailwind css
- **Backend** - Node js , Express js.
- **Databases** - MySQL, MongoDB.
- **Deployment** - Docker , Jenkins , Linux , GitHub
- **Soft Skills** - Time Management, Teamwork, Problem Solving

PROJECT EXPERIENCES

- **AI Powered Farming Assistant** - [GitHub](#)
 - Engineered a full-stack AI-based farming assistant using ML models and computer vision, enabling intelligent decision support for farmers.
 - Integrated crop recommendation and real-time weather insights to enable data-driven crop selection and improve farm planning accuracy.
 - Developed deep learning-based disease detection and AI chatbot advisory, enabling early disease identification and providing 24/7 intelligent farming support.
- **Job Portal Application** - [GitHub](#)
 - Developed a MERN-based job portal with secure JWT authentication and automated resume management to reducing recruiter screening effort by ~40% through automation.
 - Integrated an AI-powered chatbot for career guidance, boosting user engagement and providing 24/7 support.
 - Containerized with Docker and automated CI/CD via Jenkins, enabling faster, reliable deployments.
- **AI-Powered Note Sharing Platform** - [GitHub](#)
 - Built a note-sharing platform for students and faculty, enabling structured and collaborative access to study materials.
 - Integrated AI features such as PDF summarization and auto-generated MCQs with explanations to enhance learning efficiency.
 - Implemented secure OTP-based authentication, ensuring 100% privacy and reliable access control.

INTERNSHIP AND CERTIFICATIONS

- DevOps Internship Program - Training Certification
- Certified Java Internship Program - 1Stop.ai
- Data Structure And Algorithms Using Python , NPTEL

CAREER OBJECTIVES

Seeking an entry-level Software Engineer position where I can leverage my skills in the MERN stack and DevOps tools like Docker and Jenkins to build scalable applications, optimize development workflows, and contribute to organizational success while advancing my technical expertise.
